

Guidelines for branch finances 2019-2020

The branch allocation of funding from RSB in 2019-2020 will be the same as for 2018-19.

Branch bank accounts

From the financial year 2017-18 onwards the rules governing branch bank accounts changed. This is required by both the Charity Commission and by the RSB auditors. All branches must have accounts with online access and full login details must be provided to the RSB finance manager.

If branches do not want online access, branch finances can be handled directly by the RSB finance manager at Head Office. In this case the branch bank account should be closed at the end of the financial year and all remaining funds transferred to the Head Office account.

Several branches already make use of this facility, which removes the need to submit an annual return and involves less admin for the treasurer. Invoices and expense claims are submitted to and paid directly from branch funds held at Head Office and receipts from events are directed to the branches funds.

Please contact us at regions@rsb.org.uk for all document submissions or questions.

Branches are still required to submit the annual **Budget Proposal** document for the financial year.

Schedule of financial procedures for 2018-19

The RSB financial year runs from 1st October until 30th September.

Summer 2019:

- Plan activities for 2019-2020 and submit details on the Budget Proposal document. Branches are required to run a minimum of **four events** each year

Before 15th October 2019:

- Prepare and submit the Branch Annual Return form for 2018-19 to Head Office.
- Submit the branch bank account statement as of 30th September 2019 to Head Office.

*NB: These two documents are **not** required for branches where accounts are managed at Head Office and there is no local bank account.*

After 1st October 2019:

- As soon as **all required documents have been received**, funds will be transferred to the branch account or made available in the Head Office account to top up the balance to the level of the annual allocation.

NB: there is no carryover of unused allocated funds or additional event funding from one year to the next. Where branches have raised additional income from other sources, carry over should be discussed in advance with Head Office.

- Branch treasurers manage finances throughout the year and branches can apply for additional event funding either from the RSB or outside sources as required to run their programme.

Copies of the branch budget proposal and annual return forms can be downloaded from the branch resources page: www.rsb.org.uk/branch-resources

Branch funding allocation

Each branch will receive a set amount of funding (the branch allocation), after the branch return, bank statements and budget proposal documents have been received and approved by Head Office. The branch allocation will be transferred less any balance remaining from the previous year. For branch accounts held centrally, funds will be available from Head Office once the budget proposal document has been received. The sum allocated should cover the branch general administrative costs, the AGM and as much of the planned programme as possible.

The branch allocation of funding from RSB in 2019-20 will be the same as for 2018-19.

Branch Returns

Each branch holding its own bank account, is required to send a return of branch income and expenditure at the end of each financial year.

The branch annual return form is available on the [branch resources page](#). An example of the completed form is shown below.

Branch planning and budget proposal

We expect each branch to prepare a plan of activities and events during the year and a proposed budget for submission to Head Office, using the budget proposal form. Branches are expected to run a minimum of four events each year. We understand that some activities and costs will change during the year but branches are asked to provide as much accurate detail as possible for effective financial planning. Actual expenditure from previous years will be useful in this planning process.

The budget proposal form plus a completed example are available on the [branch resources page](#). and a completed example is shown below. There are two sections within the one-page form:

Use of branch funds

Funds provided to branches can be used for branch activities supporting the [vision, mission and values of the RSB](#). This includes:

- Branch AGM and any associated event
- Activities and events for members
- Activities and events for non-members (public, schools, etc...) which align to the RSB vision, mission and values

All uses of branch funds must be supported by appropriate invoices or [expenses claim forms](#) with receipts. These **must** be retained by branch treasurers and be available for inspection by the RSB or its auditors.

Branches should make best use of the funds available and seek best value for money when organising events and activities. This will include use of free venues and educational/charitable discounts, etc. Charges for branch events should be considered and in particular for social events involving attraction admission fees, meals etc. Pricing structures for members, non-members, children, etc. should also be considered.

Gifts for speakers

In line with RSB policy, branches may purchase speaker gifts up to £10 for small events (less than 100 attendees), for events over 100 the upper limit is £50. We would remind all branches that the RSB is a charity and as such encourage branches to be prudent when selecting gifts.

Cash and gift prizes for competitions and regional awards

Cash prizes and vouchers are not permitted for regional competitions and award winners. However, branch funds can be used to purchase small biology related gifts (such as a biology text book or non-fiction book or similar). Gifts should be agreed with the regions team in advance of publicising the competition and all receipts retained as appropriate.

Branches can award prizes of a certificate, a year's complimentary membership / renewal (on request and agreement to the head of membership and marketing), an RSB pin (depending on the event) and acknowledgement of achievement in *The Biologist* or on the RSB website.

Should local sponsors wish to cover a larger cash prize, this would be acceptable however any contract or agreement should be with the RSB and not local members or committees.

In addition, Branch funds **cannot** be used for the following items:

- Charitable donations
- Cash sponsorship of non-branch events, e.g. conference sponsorship
- Transfer of funds to third parties for non-branch events, e.g. school events or prizes
- Cash payments to speakers/presenters unless this is the speaker's main business. Allowed payments should be supported by a business invoice. NB. Fees for specialist guided tours or behind the scenes tours **are** permitted and should be accompanied by an invoice from the attraction/venue. See 'Gifts for speakers' policy above.
- Cash payments to volunteers including branch committee members **except** for expenses incurred in attending branch meetings or organising branch activities. All such expenses must be supported by an expense claim form approved by the branch treasurer and with accompanying receipts.
- Competition / event prizes e.g. cash prizes, vouchers or gifts except as described in the section above.

Additional event funding

In addition to the basic branch allocation, branch committees will have the opportunity to apply to a separate allocation of funding for specific events (up to £500 for each event), which Head Office will approve on an individual basis for each event.

This additional event funding is intended to supplement branch committee's basic allocation, so that committees with plans to run additional events throughout the year have the opportunity to apply, as and when opportunities arise. A key aim is to help ensure the overall budget for all branches is used effectively and efficiently across all 19 branches throughout the year, maximising the collective impact and efforts of our branches.

The additional event funding application form is available on the [branch resources page](#) and applications can be made at any time during the year.

Branch committees will receive a decision as soon as possible after submitting an application but are encouraged to apply as early as possible to avoid delays in event organisation. We will not necessarily give a yes or no decision, but may instead, offer part funding or suggest alterations to the event proposed.

There is no limit to the number of events branches are able to apply for funding for and each will be judged as much as possible on their individual merit. As with all branch events, impact and value for money will be important considerations, as well as their congruence with the aims of the RSB, and overall budget limits. Another important factor is that there is a balance of events throughout the country and throughout the year.

Half the overall funding pot for additional event funding will be set aside to fund events in the first six months of the financial year, 1st October 2019 – 31st March 2020 and half to fund events in the second six months of the financial year, from 1st April 2020 – 30th September 2020. This is to enable an equal spread of events throughout the year and to ensure all funds are not allocated within the first half of the year.

Sourcing additional external event funding

In addition to branch's basic allocation and additional event funding, branches may wish to seek funds from elsewhere. A list of some [public engagement funding schemes](#) is available.

Individual members can apply to the [Outreach and Engagement Grant](#) scheme for event funding. Grantholders can work with branch committees to organise and deliver events funded through the Outreach and Engagement grant scheme, however events are distinct from branch committee activity, and the individual making the application remains solely responsible for the event.
