# Commitment to Biology

If you are studying the biosciences then becoming a member of the Society of Biology offers significant benefits and shows potential employers that you are serious about entering a bioscience career.

---

## Stand out from the crowd

Membership demonstrates a commitment to being a professional biologist.

When you graduate you can use the distinguished post-nominal letters AMSB (Associate Member of the Society of Biology) after your name.

---

## Stay ahead of the field

Your complementary subscription to our peer-reviewed and citation-listed journal *The Biologist* will keep you up to date with what's happening at the forefront of biology.

Our monthly e-newsletter will keep you informed of the latest news from the Society of Biology, including details of exciting new member services.

---

## Develop your professional contacts

All undergraduates and post-graduate students should aim to network with professionals working in their chosen field. Membership of the Society of Biology gives you access to a diverse network of professional biologists.

Contact other members online in the members' area of our website or network with biologists in your area through our exciting local events calendar.

---

## Research your future career

Find out about the career opportunities available to you on our website.

Apply for jobs using our free online Jobs Board.

Find out what you should be including on your CV.

Visit our Life Sciences Careers Conference. Free for student members.

---

## Additional Benefits

20% discount on Biology Titles from the UK's leading academic publishers.

Ten travelling grants of £500 are available each year to Student and Associate members of the Society.
