Public attitudes to Genetics survey

Who would you trust to provide accurate and reliable information about COVID-19?

Which of the following statements do you most agree with? These days I hear and see...

	Frequency	Percentage
... far too much information about science	47	2.3
... too much information about science	134	6.5
... the right amount of information about science	975	47.2
... too little information about science	743	36.0
... far too little information about science	165	8.0

Thank you!
